

Please do not do anything that would weaken the current provisions of Indiana's Telephone Privacy law protections. Since placing my name on the "no call" list the number of telephone solicitations I receive has dropped to nearly nothing. I used to get one or two nearly every night and now I don't think I've received 5 in the 10 months since January 2002. If you want to enhance the law, fine. Please DO NOT PREEMPT IT because it is working great!!!!
